

Underwriting Programs

In addition to traditional underwriting, Frontier offers several underwriting programs. While numerous accelerated underwriting programs offer an opportunity to waive labs for most clients, not all clients will qualify. Many life insurance carriers also offer non med, simplified issue, executive, and guaranteed issue products for coverage with no exam needed.

Accelerated Underwriting

Clients have the potential of no medical requirements during the underwriting process. Programs may be limited to healthier clients and many programs require ratings of Preferred or better. Applications will kick to traditional underwriting if disqualified for accelerated underwriting.

[Go to page 2](#)

Non Med Underwriting

Similar to accelerated underwriting programs, clients have the potential of no medical requirements during the underwriting process. Multiple underwriting classes are typically available; however, issue age and face amount limits are generally somewhat lower. Carriers will request a traditional application or tele-interview, motor vehicle record check (MVR), prescription database check (Rx check), and Medical Information Bureau check (MIB); medical records (APS) may be ordered if necessary.

[Go to page 4](#)

Simplified Issue Underwriting

Clients have the potential of no medical requirements during the underwriting process. Requests for exams/labs and/or interviews are less likely. Underwriting decisions are generally based on application questions and e-sourced client information. Simplified Issue is somewhat more expensive than accelerated underwriting or non med underwriting. Carriers usually offer non-tobacco or tobacco underwriting classes only, and the underwriting decision is likely to be accept or decline.

[Go to page 5](#)

Executive Advantage Underwriting

These programs are designed specifically for higher net worth clients with access to regular health care and/or employer-provided annual executive physicals and may involve a minimum annual income. Medical records with recent physicals and labs are required.

[Go to page 7](#)

Guaranteed Issue Underwriting

Clients who cannot qualify for life insurance based on underwriting or lifestyle issues can consider guaranteed issue life insurance. There are no medical exams, health or lifestyle questions, and no underwriting. It is the simplest and least invasive type of life insurance and can be the most expensive per \$1,000 of coverage.

[Go to page 8](#)

Disability Insurance Underwriting

Disability insurance has a variety of underwriting programs depending on the overall situation, the monthly benefit, and the issue age(s), and includes fully-underwritten, fully-underwritten multi-life, simplified underwriting, simplified multi-life underwriting, non-medical underwriting, and the potential for guaranteed standard issue.

[Go to page 9](#)

Long Term Care Simplified Underwriting

Clients have the potential of no medical requirements during the underwriting process. Underwriting generally consists of a phone or online interview, script check, and Medical Information Bureau (MIB) report. Requests for medical records or labs are rare and at the underwriter's discretion. Underwriting decisions are generally based on application questions and e-sourced client information. Carriers usually offer non-tobacco or tobacco underwriting classes only, and the underwriting decision is likely to be accepted or declined.

Disability Insurance Underwriting

Simplified Issue Underwriting

Clients have the potential of no medical requirements or financials being needed upfront for the underwriting process depending on the issue age and monthly benefit amount, and this is available to most occupation classes. Carriers can request exams, labs, and/or financials if necessary. Underwriting decisions are generally based on application questions, a tele-app interview, motor vehicle record check (MVR), prescription database check (Rx check), and a Medical Information Bureau check (MIB). Simplified Issue does not have a difference in premium than full underwriting. It is the same product, and the process is automatic for the issue age and monthly benefit requirements.

Non Med Underwriting

Similar to simplified underwriting programs where clients have the potential of no medical requirements during the underwriting process depending on the issue age and monthly benefits, this is available to all occupation classes. Carriers will request a traditional application with a phone interview and/or tele-app; financials may be required depending on benefit amount, motor vehicle record check, prescription database check, and Medical Information Bureau check. Medical records (APS) may be ordered if necessary.

Guaranteed Issue Underwriting

Guaranteed issue is available, typically on a mandatory basis, for a select class(es) of employees to supplement the group coverage limitations. The opportunity would need to be agreed upon by the carrier and the company before an offer letter goes out to the company detailing the maximum monthly benefit participation and cap, which would then provide a census back to the carrier. Applications can be pre-filled by the carrier or have an electronic enrollment. The applications are approved as standard medically (the best available for disability insurance) or declined based on a few knock-out questions.

Carrier	Underwriting Type	Plans	Min. Age	Max. Age	Maximum Monthly Benefit	Financials	How to Submit
